EDUCATION

Master of Computer Applications (MCA) 2024 – 2026

MPSTME, NMIMS University | CGPA: 7.38/10 | Specialization: Networking & IT Infrastructure

Bachelor of Science in Information Technology 2020 – 2023

Tolani College of Commerce | CGPA: 8.28/10

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C++, SQL

Web Technologies: React.js, Node.js, Express.js, Next.js, Spring Boot, REST APIs, GraphQL

Databases: MongoDB, MySQL, PostgreSQL, Firebase, Redis, Oracle DB

Cloud & DevOps: Docker, Git, CI/CD, Linux, Shell Scripting, AWS basics

Networking: TCP/IP, DNS, DHCP, VPN, Firewall Configuration, Network Security, Nmap, Wireshark

Data Analytics: Power BI, Tableau, Excel, Statistical Analysis, Data Visualization

PROFESSIONAL EXPERIENCE

Data Analyst Intern Aug 2023 – Jan 2024

Aivariant | Remote

- Analyzed 100K+ records using Python and SQL to identify business trends, improving decision-making efficiency by 30%
- Developed 15+ interactive Power BI and Tableau dashboards for real-time data visualization and reporting
- Automated data processing workflows using Python scripts, reducing manual processing time by 40%
- Conducted A/B testing and statistical analysis to optimize marketing campaigns, increasing conversion rates by 25%
- Collaborated with cross-functional teams to deliver data-driven insights and actionable recommendations

IT Support Specialist (Freelance) 2022 – Present

Self-Employed | Remote

- Provided technical support for 50+ network deployments, achieving 99.5% client satisfaction rate
- Configured and maintained routers, switches, and firewalls for small to medium-sized businesses
- Implemented security measures including VPN, SSL/TLS, and access controls, maintaining zero security breaches
- Performed system diagnostics and troubleshooting, resolving 95% of issues within 24 hours
- Created comprehensive documentation and user guides for network infrastructure and security protocols

PROJECTS

Smart Parking System

2025

Tech Stack: Java, Spring Boot, Oracle DB, Firebase, REST API, OpenStreetMap

- Developed full-stack parking management system with real-time availability tracking for 5000+ users
- Implemented dynamic pricing algorithm based on demand, optimizing revenue by 35%
- Integrated OpenStreetMap API for GPS navigation and QR-based secure access control
- Built admin dashboard with analytics, reducing operational overhead by 40%

Property Price Prediction Platform

2025

Tech Stack: React, Node.js, Python, MongoDB, TensorFlow, Machine Learning

- Built AI-powered property price prediction system using ML models, achieving 94% accuracy on 50K+ datasets
- Developed interactive dashboards with real-time analytics and market trend visualization
- Implemented RESTful API for third-party integrations, handling 10K+ daily predictions
- Automated data scraping pipeline for continuous model training and improvement

SmartTech Connect

2025

Tech Stack: React, Node.js, MongoDB, Firebase, Socket.io, WebRTC

- Created technician booking platform connecting 500+ technicians with 2K+ bookings, rated 4.8/5
- Implemented real-time chat using WebSocket and community forum with threaded discussions
- Developed AI-powered service recommendation engine based on user history and preferences
- Built rating system with sentiment analysis for quality assurance and feedback management

Network Monitor Dashboard

2024

Tech Stack: Python, Flask, React, InfluxDB, Grafana, SNMP

- Developed real-time network monitoring system for 100+ devices with 99.5% uptime
- Implemented bandwidth analytics and automated alerting system, reducing incident response time by 60%
- Created device discovery and network topology mapping with multi-protocol support (SNMP, NetFlow, sFlow)

CERTIFICATIONS & ACHIEVEMENTS

- **Data Analytics Professional Certificate** – ExcelR (Aug 2023 – Jan 2024)
- Improved data processing efficiency by 40% through automation and optimization techniques
- Delivered 15+ analytical dashboards recognized for business impact and data-driven insights
- Maintained 99.5% client satisfaction rate across 50+ freelance IT support projects
